§ 1780.95

- (3) For borrowers with more than one loan, the extra payment will be applied to the account secured by the lowest priority of lien on the property from which the extra payments was obtained. Any balance will be applied to other Agency loans secured by the property from which the extra payment was obtained.
- (4) For assessment bonds, see paragraph (k) of this section.
- (g) The place of payments on bonds purchased by the Agency will be determined by the Agency.
- (h) Redemptions. Bonds will normally contain customary redemption provisions. However, no premium will be charged for early redemption on any bonds held by the Government.
- (i) Additional revenue bonds. Parity bonds may be issued to complete the project. Otherwise, parity bonds may not be issued unless acceptable documentation is provided establishing that net revenues for the fiscal year following the year in which such bonds are to be issued will be at least 120 percent of the average annual debt serviced requirements on all bonds outstanding, including the newly-issued bonds. For purposes of this section, net revenues are, unless otherwise defined by State statute, gross revenues less essential operation and maintenance expenses. This limitation may be waived or modified by the written consent of bondholders representing 75 percent of the then-outstanding principal indebtedness. Junior and subordinate bonds may be issued in accordance with the loan resolution.
- (j) *Precautions*. The following types of provisions in debt instruments should be avoided:
- (1) Provisions for the holder to manually post each payment to the instrument.
- (2) Provisions for returning the permanent or temporary debt instrument to the borrower in order that it, rather than the Agency, may post the date and amount of each advance or repayment on the instrument.
- (3) Provisions that amend covenants contained in RUS Bulletins 1780–27 or 1780–28.
- (4) Defeasance provisions in loan or bond resolutions. When a bond issue is defeased, a new issue is sold which su-

- persedes the contractual provisions of the prior issue, including the refinancing requirement and any lien on revenues. Since defeasance in effect precludes the Agency from requiring refinancing before the final maturity date, it represents a violation of the statutory refinancing requirement; therefore, it is disallowed. No loan documents shall include a provision of defeasance.
- (k) Assessment bonds. When security includes special assessment to be collected over the life of the loan, the instrument should address the method of applying any payments made before they are due. It may be desirable for such payments to be distributed over remaining payments due, rather than to be applied in accordance with normal procedures governing extra payments, so that the account does not become delinquent.
- (1) Multiple debt instruments. The following will be adhered to when preparing debt instruments:
- (1) When more than one loan type is used in financing a project, each type of loan will be evidenced by a separate debt instrument or series of debt instruments:
- (2) Loans obligated in different fiscal years and those obligated with different terms in the same fiscal year will be evidenced by separate debt instruments:
- (3) Loans obligated for the same loan type in the same fiscal year with the same term may be combined in the same debt instrument;
- (4) Loans obligated in the same fiscal year with different interest rates that will be closed at the same interest rate may be combined in the same debt instrument.

[62 FR 33478, June 19, 1997, as amended at 64 FR 29947, June 4, 1999]

§ 1780.95 Public bidding on bonds.

Bonds offered for public sale shall be offered in accordance with State law and in such a manner to encourage public bidding. The Agency will not submit a bid at the advertised sale unless required by State law, nor will reference to Agency's rates and terms be included. If no acceptable bid is received, the Agency will negotiate the purchase of the bonds.
